

HPW3-Q-HXX

Mini Qube

SECURE

LOGIQ

The Secure Logiq H-Series Qube range has been designed to provide a standalone all-in-one server and client solution for the small to medium sized IP CCTV installation. With a compact form factor, 300 Mbps throughput and up to 32TB of on-board storage the HPW3-Q-H range are quality products for the budget conscious installation offering serious competition to the appliance or NVR market.
